EDUCATION

National Institute of Technology, Silchar | B.Tech. in Electrical Engineering | 2024-2028 | CGPA: 7.3/10

TECHNICAL SKILLS

Languages: Java, C, JavaScript

Backend: Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, JWT, Maven

Frontend: React.js, HTML, CSS, Tailwind CSS

Database: MySQL

Tools: Git, GitHub, Postman, Netlify, Render, Railway

PROJECTS

PeerPulse | *React, Spring Boot, Spring Security, JWT, JPA/Hibernate, MySQL*

- Built a faculty review platform with institute email OTP verification, Scholar ID authentication, and JWT-based authentication using Spring Security.
- Developed RESTful APIs with Spring Boot, Spring Data JPA, and Hibernate for managing users, faculty profiles, ratings, and reviews.
- Implemented JWT token generation/validation and Bearer-token authentication through a security filter, with role-based access control (RBAC) for user and admin privileges.
- Implemented anonymous reviews, multi-criteria ratings, department filtering, sorting, and review moderation while polishing the React frontend with Tailwind CSS.

URL Shortener | *React, Spring Boot, Spring Security, JWT, JPA/Hibernate, MySQL*

- Built a full-stack URL shortening service with authenticated URL creation, short-link generation, and automatic redirection to original URLs.
- Developed REST APIs using Spring Boot, Spring Security, Spring Data JPA, and Hibernate, with MySQL for persistent user and URL data.
- Implemented user-specific URL history and click tracking, allowing authenticated users to manage and monitor their generated links.
- Deployed the React frontend on Netlify, Spring Boot backend on Render, and MySQL database on Railway.

E-Commerce Platform | *React, Spring Boot, Spring Security, JWT, JPA/Hibernate, MySQL*

- Developing a full-stack e-commerce application with product browsing, category filtering, product details, cart, and wishlist functionality using React.
- Building Spring Boot REST APIs with Spring Security, JWT, Spring Data JPA, and Hibernate for authentication and persistent application data.

ACHIEVEMENTS

- **LeetCode:** Solved **700+ problems** and earned the **Knight Badge (1902 max)**.
- Adobe University Hackathon 2026: Cleared the Online Assessment and advanced to the second round.
- Smart India Hackathon (SIH) 2025: Qualified through the institute-level selection process.
